

LEGEND:

- Landholding
- 50m Stream Buffer
- Development Footprint
- Drain
- Flow Direction
- Stream / Drain
- Inferred Groundwater Flow
- Surface Water Sample
- Drain Crossing
- Stream/River Crossing
- Dwelling Location
- Proposed Turbine

Note:

The aerial photograph used in this figures is out dated and does not reflect the current condition of the raised bog adjacent to turbines T9 and T10. The peat cutting face actually exists approximately 50m to the southwest of these proposed turbine locations. Proposed turbine locations T9 and T10 are in areas of cutaway raised bog and not intact bog.
